Wise Makers — Design System Reference

Single-document context sheet for image-generation prompts. Compiled from the Wise Makers design system: brand colors, type, logo, spacing, iconography and content voice.

Brand

Wise Makers is a Brazilian (pt-BR) company producing corporate training material for sales teams — practical, process-driven, subject-first (e.g. "Gestão & Processos em Vendas" / "Sales Management & Processes"). The visual identity is dark-forward: near-black canvas, white text, a saturated mint-green accent used sparingly for emphasis and calls to action.

Wordmark colorways

Wordmark only — no icon/symbol mark. Ships in three colorways below. Never invent a new mark; use one of these exact files.

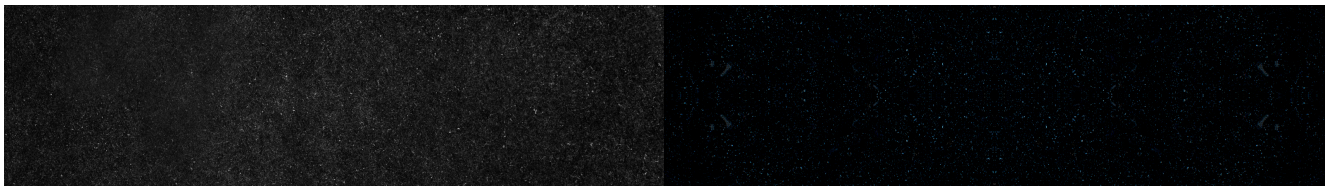

Wise Makers

Wise Makers

Texture backgrounds

Two dark, fine-grain textures, used full-bleed behind hero sections only — never behind body copy.

Marketing Site

Homepage

Interactive click-through recreation — hero, course module grid, CTA band, course detail with enroll dialog, and contact form. See `ui_kits/marketing-site/index.html`.

Type

Type scale — Plus Jakarta Sans

Role	Font	Usage
Display	Baloo 2 (ExtraBold/Bold)	Hero headlines, big numbers, logo-adjacent moments only — Google Fonts substitute for the logo's letterforms, not a licensed brand font
Body / UI	Plus Jakarta Sans (400–800)	Everything else: headings, body copy, forms, labels

Type scale: 12 / 13 / 14 / 16 / 18 / 22 / 28 / 36 / 48 / 64 / 88px.

Display — Baloo 2

Weights

Aa 500 **Aa 600** **Aa 700** **Aa 800**

Spacing

Spacing scale

4px base rhythm: 4, 8, 12, 16, 20, 24, 32, 40, 48, 64, 80, 96, 128px.

Radius & elevation

Corner radius
Small controls 8px · Cards/inputs 14px · Feature cards/modals 20–28px · Buttons/tags fully pill-rounded

Borders
Dark surfaces: hairline white-alpha borders (8–24% white), no shadows. Light surfaces: soft low-opacity black shadows.

Elevation
shadow-sm/md/lg = soft diffuse black shadows on light; an accent glow (mint, 22% opacity blur) for "lit up" moments

Motion & states

- Fast, restrained transitions: 120–200ms ease-out, no bounce/spring
- Hover: accent lightens (green 500→400); secondary/ghost gains subtle white-alpha fill
- Press: accent darkens (500→600), 0.97× scale-down for tactile feedback
- Focus: 3px mint-green ring at ~18% opacity

Iconography

No brand icon set provided. System defaults to **Lucide** — clean, geometric, medium-stroke line icons. No emoji use.

Voice & content

Portuguese (pt-BR). Plain-spoken, competence-first, subject-first titling rather than clever/abstract copy (e.g. naming the discipline directly: "Gestão & Processos em Vendas"). No emoji anywhere in source material.

Prompt shorthand

For image-generation context, summarize as: *"Dark, near-black background; clean geometric sans-serif type; a single saturated mint-green (#00E193) accent used sparingly; generous rounded corners; hairline light borders instead of shadows on dark surfaces; no illustration style, no gradients beyond simple dark overlays; confident, plain-spoken Brazilian Portuguese corporate-training tone."*
